

# Construction, Weatherization and Grounds Maintenance

Safer Foundation has worked with businesses in the construction and landscaping industries for many years, including residential and commercial construction, deconstruction, retrofitting and weatherizing, landscaping and snow and trash removal.

We have supplied a regular flow of qualified, experienced and hard working candidates in these areas:

- General laborers
- Carpentry – finish and frame
- Landscape and grounds maintenance
- Snow removal
- Deconstruction
- Front loader operation
- Clean-up
- Supervision
- Weatherization
- Roofing

Our candidates come with the skills, training and experience you need – from horticulture and carpentry to recycling and weatherization.
